

# COVID-19 COMMUNIQUE

**CI** CORPORATE CATALYST  
(INDIA) PVT LTD  
(in Joint Venture with SCSS Global)

April 21, 2020

## GLOBAL OUTLOOK

### **WHO issues guidelines on lifting lockdown restrictions**

The novel coronavirus continues to claim lives and livelihood worldwide with more than 2.3 million declared cases and a state of continued lockdown across nations. The WHO has issued new guidance on lifting COVID-19 lockdown which includes considering the following criteria:

- Disease transmission is under control
- Health system capacities are in place to detect, test, isolate and treat every case and trace every contact
- Outbreak risks are minimized in special settings like health facilities and nursing homes
- Preventive measures are in place in workplaces, schools and other places where it is essential for people to go
- Risk of importing new cases can be managed
- Communities are fully educated, engaged and empowered to adjust to the “**new normal**”

### **Global economy to contract by 3% in 2020: IMF**

The International Monetary Fund (IMF) recently announced the "Great Lockdown" recession will drag global GDP lower by 3% in 2020. Further, the global economy is projected to grow by 5.8 percent in 2021 as economic activity normalizes, helped by policy support. However, the IMF believes that its forecast for the COVID-19 recession may be too optimistic given the uncertainty around the virus.

### **G20 nations freeze debt repayments of world's poorest nations**

G20 economies agreed to suspend both principal and interest payments for the world's poorest countries through the end of the year. This is expected to free up more than USD 20 billion for such countries to spend on improving their health systems and fighting the pandemic. Further, there was no consensus on idea of USD 500 billion Special Drawing Rights (SDR) issuance proposed by the IMF.

### **GSK and Sanofi join forces for COVID-19 vaccine development**

Two of the world's largest vaccine manufacturers announced a joint venture to develop an *adjuvanted vaccine* for COVID-19, using innovative technology from both companies, to help address the ongoing pandemic. The trial is expected to start in second half of 2020 with a likely public launch in 2021 if drug regulators approve it.
