GLOBAL OUTLOOK

COVID-19 rise continues

The number of confirmed coronavirus cases across the world surpass 1.7 million with India reporting over 9,000 confirmed infections. The United States which became the epicenter of the outbreak after China and Italy, reported over half a million confirmed infections with a highest fatality in any country so far. Further, South Korea reported 91 patients among the recovered cases to have been re-infected raising further concerns for health authorities and the affected nations.

EU countries introduce new takeover rules as Chinese corporates gear up for M&A bargains

Bankers have recently seen a spike in requests from Chinese firms and funds for proposals on targets in Europe in the backdrop of tumbling valuations of listed companies. The European Union has warned that the economic slump from the pandemic could leave key industries vulnerable for hostile takeovers. While Italy and Spain have already imposed new rules for takeovers, Germany and other nations also plan to bring in similar regulations.

Japan offers support for moving its manufacturing base out of China

Japanese Prime Minister Shinzo Abe on April 7 declared a state of emergency for Tokyo, Osaka and five other prefectures, empowering local authorities to urge people to stay at home. The government also approved the stimulus package worth 108.2 trillion yen (USD 992 billion), equivalent to 20% of Japan's economic output to cushion the impact of the epidemic. It has earmarked USD 2.2 billion of its record economic stimulus package to help its manufacturers shift production out of China.

Global cost of Coronavirus pandemic may cross USD 4 trillion: ADB

As per the estimates by the Asian Development Bank (ADB), the cost of the coronavirus pandemic could be as high as USD 4.1 trillion, or almost 5% of global gross domestic product, depending on the spread of the disease through Europe, US and other major economies. However, a shorter containment period could limit the damage to USD 2 trillion.
